

Mee

Begin your march with style and get the new YOOtheme template: Mee!

Mee is an unique Joomla template which fits perfect for a designer portfolio. The trendy and fancy style is perfect way to present your latest designs and artwork. The template comes with 10 color and pattern variations which gives you the possibility to create 50+ style combinations. Mee is packed with all new features. The new YOOLightbox allows you to display all popular web media like images, HTML, Flash, QuickTime movies and more. Further we are introducing the exclusive YOOMaps module, bringing you a Google maps integration in YOOtheme way.

Feature list

- New YOOLightbox which can display any kind of content
- New smart YOOMaps module
- Fading modules while hovering
- Fully sliced Fireworks .png Source files
- Native Versions for Joomla 1.0 & 1.5

And of course all the classic features are included: Tableless CSS Design, YOOMenu System, YOOSpotlight, YOOLightbox, YOOReflection, YOOSTyleswitcher and many more...
